

BOB, 22

Student at DETI

PROFILE

Passionate about technology, coding, and the university environment, he enjoys being part of the DETI community. Whether he's working on group projects, attending lectures, or participating in organized events, he takes pride in his department and wants to show that through his style. He also plays for the LECI football team and he is very passionate about sports.

EDUCATION HISTORY

● MECT

Universidade de Aveiro

● LECI

Universidade de Aveiro

GOALS

- Wants to represent DETI with stylish and comfortable merchandise.
- Prefers an easy and seamless online shopping experience with various payment options.
- Enjoys exclusive designs that reflect his passion for computing and technology.
- He wants to buy the team kit in order to have the opportunity to compete.

CHALLENGES

- Finds it hard to get cool and well-designed university merchandise.
- Lack of an organized website with available products for purchase.
- Limited payment options, making it inconvenient for students who prefer digital wallets or university-specific payment methods.

MOTIVATION

"I want to wear something that reflects my passion for technology and my pride in being a DETI student. Having comfortable and stylish merch makes me feel more connected to my university community. I also want a simple way of buying the team kit, so I can play for my team."

RITA, 23

Student at DETI

PROFILE

Member of the student committee. She is responsible for managing the stock of merchandise for the Informatics Engineering course, ensuring that students can easily purchase their desired items. Passionate about organization and efficiency, she wants to streamline the inventory management process to avoid stock shortages and delays.

EDUCATION HISTORY

● MEI

Universidade de Aveiro

● LEI

Universidade de Aveiro

GOALS

- Ensure that exists enough stock of its specific merchandise.
- Keep track of inventory in a simple and efficient way.
- Provide an organized and up-to-date online system to manage stock and sales.

CHALLENGES

- Difficulties in tracking stock levels, leading to shortages or overstock.
- Lack of an integrated system to manage inventory and sales efficiently.
- Time-consuming manual updates, making it harder to stay organized.

MOTIVATION

"I want a streamlined system to manage merchandise stock efficiently, ensuring students can always find what they need without unnecessary delays or confusion."
